

MISSION U19 and U16 GIRLS UPDATE

On the heels of their second consecutive trip to the USA Hockey National Finals the U19 Mission Girls program has been very busy since returning from Nationals . Most importantly , a record number of graduating seniors from the 2009 class will be moving on to NCAA hockey and have recieved various committments they include :

Beth Hitchcock	Trinity
Amanda Boscovich	Ohio State

Furthrmore, all of our returning players have been visiting schools and are actively evaluating their college options . The opportunity this next class will have is a comment on their incredible work ethic and their committment to excellence both on the ice but also in the classroom . We expect , given current levels of interest , to help send an equal number of players into NCAA programs next season .

In addition , the Mission U19 and U16 teams will be traveling together to several events during the course of the season . Our goal is to build the most competitive schedule in North America for both our U16 and U19 teams " said Girls Hockey Director Tony Cachey .
